Principles and Methods of Comparative Effectiveness Research

Fridays, starting April 1st, 10:00 – 12:00 p.m.
Location: CHT 1331

Hybrid Course Format: Students will review recorded lectures online, and complete assignments outside of class. There will be weekly 2-hour face-to-face meetings to discuss lecture content, review journal articles, and work on class projects.

Course Description: This course will provide an introduction to a range of Comparative Effectiveness Research Methods.

Instructor of Record: J Melnikow, MD, MPH with instruction from Jeffrey Hoch, Ph.D.; R Kravitz, MD, MSPH; D Tancredi, PhD; P Romano, MD, MAS; and James Holmes, Jr. M.D.

Registration: Contact Teresa Duran @ tlduran@ucdavis.edu
Enrollment is limited to 20 students. Prerequisite: Introduction Statistics Course.
*This course can be used for graduate study program electives.
*To ensure you receive course credit use the CRN # 37278 to register.
