Special thanks to:

Sandrijn van Shaik, who worked tirelessly to organize and deliver the special GME plenary and poster session on Patient Safety, Quality Improvement, and Education.

Ray Wong, our Asilomar and WGEA “sage” who began working to help us plan this conference more than a year ago, and who has continued to contribute all year long to each and every part of the program.

Faculty and staff of the David Geffen School of Medicine at UCLA and the University of New Mexico School of Medicine, who freely shared both their valuable experiences and the materials they developed to organize successful conferences in previous years.

Dr. Ann Bonham for getting us started last spring and Brownie Anderson for helping us put our work in context with the mission of AAMC and WGEA.
